Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 29 May 2003.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Election/Restrictions

1. Applicant's election of Group II, Species C, in Paper No. 8 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Claims 27-30 & 34-36 are readable thereon.

With respect to applicant's assertion that claims 27, 35 & 36 are generic to Species A-D, after reconsideration the examiner agrees.

2. Claims 1-26, 31-33, & 37-65 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected inventions and species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 8.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Specification

4. The disclosure is objected to because of the following informalities: On page 3, line 29 in the brief description of the drawings, the specification states that Figure 10B is

a perspective view of Figure 7A. However, from the drawings and the detailed description, it appears that figure 10 B is a perspective view of Figure **10A**. Appropriate correction is required.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 27-30 and 34-36 are rejected under 35 U.S.C. 102(b) as being anticipated by Goldhaber et al. (5,269,946). Goldhaber et al. (hereafter Goldhaber) discloses a system for collecting, separating and filtering whole blood components into storage containers. The system includes 4 bags (16/28/26/34) or containers seen to be equivalent to applicant's primary, platelet unit, plasma unit and auxiliary containers. The containers are integrally coupled to one another by tubing (29/30/32) to form a sterile blood processing set. The system further includes a filter (40) in-line with one of the containers to remove undesired components from the separated blood, such as white blood cells. Goldhaber also discloses that one of the bags may have an appendage or connector (C) that is sized and configured for connecting to additional tubing (see figure below). With respect to the bags or containers being "sized and configured to hold" their respective units of whole blood, platelet concentrate and plasma volumes, platelet additive solution, and pathogen inactivating compound as claimed in claims 27-30 and

Art Unit: 3762

35-37, the limitations that the containers to hold specific solutions or separated blood components has been treated as intended use recitations. It has been held that a recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the claimed structural limitations. *Ex parte Masham*, 2 USPQ2d 1647 (1987). The system of Goldhaber is capable of performing the recited function.

Conclusion

6. Any inquiry concerning the rejections contained within this communication or earlier communications should be directed to examiner Tricia Bianco whose telephone number is (703) 305-1482. The examiner can normally be reached on Monday through Fridays, alternating Fridays off, from 9:00 AM until 6:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Angela Sykes can be reached on (703) 308-5181. The official fax numbers for the organization where this application or proceeding is assigned is (703) 872-9302 for regular communications and for After Final communications (703) 872-9303.
